

OMBAK PUTIH

Villa Estate, Cemagi

Named after the white-capped waves which can be viewed from the upper floor rooms and terraces, this five-bedroom breathes an ocean-inspired theme in every element of its design.

Majestic and contemporary in style the property, which was completed in 2011, presents crisp white exteriors and cool cream marble floors, with striking bas-relief murals and impressive Balinese statues made from natural Palimanan stone. In keeping with the villa's seaside location, white furnishings are teamed with splashes of blue and turquoise in the ocean-inspired photographic artwork and tastefully displayed time-worn aquamarine artefacts.

Set on 3,300 square-metres, this gorgeous villa boasts two enormous master bedrooms with sexy, semi-open-air bathrooms, three stand-alone guest suites, a 30-metre swimming pool and a delightful choice of indoor and outdoor living areas and dining spaces. A full team of staff is on hand to pamper guests with butler service and superb home-cooking.

Villa Ombak Putih also provides an ideal tropical garden setting for intimate weddings and events. For further information please visit www.villaombakputih.com
